# BOY MURDERER REFUSES TO TELL OF HIS CRIME

(By United Press.)

New York, Mar. 29.—The hopes of the police that they would have in their possession within a few hours a complete confession of Albert Wolter that he had killed Ruth Wheeler was dashed today.

Wallace C. Scott, an attorney, was retained by Wolter's parents and held a lengthy conference with his client in the Tombs. He warned him that he must make no statement of any kind and when the lawyer left Wolter seemed to have regained much of his bravado and his defiant air.

When the police learned of Wolter's changed condition they were plainly angry, but insisted they had enough circumstantial evidence to obtain a conviction of first degree murder.

Monday night Wolter had said that on Wednesday he "would tell everything," provided his erstwhile girl companion, Katie Miller, or Mueller, now held as a material witness, remained loyal and still loved him.

The boy made this declaration in his cell after a day of almost ceaseless verbal hammering by detectives, who were striving to obtain a confession.

At times he wept and appeared on the verge of a breakdown, but at no time would he confess having committed the crime or even knowing the victim. The motive for the murder thus remains as much a mystery as ever.

The Miller girl told the police of the strange happenings at the fireplace in the room she shared with Wolter, but her statements evidently were not intended to incriminate Wolter, for she sent him a letter, written in German, advising him to tell the truth.

"Tell the truth," she wrote, "will forgive you and love you still."

After reading this Wolter made the rather cryptic remark that he would "tell everything" Wednesday.

It was suggested that the girl be brought to the prison, but he cried: "No, I am ashamed to face Katie now. When I get a letter from her that she forgives me I will talk."

One of the developments of the day was the finding of a silk umbrella with a peculiar wooden handle, which has been identified as that of the girl victim, in the rooms in East One Hundred and Fifth street, to which Wolter and the Miller girl moved after leaving the house in East Seventy-fifth street, where the girl's body was found.

Wolter's correspondence with other girls, not only in New York, but in neighboring towns in New Jersey, is being unearthed by the police. He posed as a dandy and a clever man with women.

## NO COMMENT ON TEDDY'S ADDRESS

Cairo, Egypt, Mar. 29.—(By United Press Correspondent.)—Contrary to expectations the National press today makes no bitter attack upon Colonel Roosevelt for the denunciation he heaped upon their political policy in yesterday's address at the University of Egypt. Thus Roosevelt is credited with another political stroke. Not only did he come to Cairo and tell the Nationalists what no other man has dared to tell them, but he got away with it in a manner that has proved the biggest surprise of the day here. It is plainly evident that the Nationalists keenly resent his speech, but they will make no issue of his utterances.

The Roosevelt party spent the day visiting bazaars, where many souvenirs were purchased, and in a visit to the mosques.

The case had gone to the jury about 4 o'clock Monday afternoon. At a late hour Monday night after vainly trying to get together, the jurymen concluded to get a few hours' sleep and rest and decided to postpone balloting until 9 o'clock Tuesday morning. Two of the number held out for acquittal and refused to recede from their position.

The court set the date for the re-trial Tuesday, June 7th. The defendant will be returned to the Catlettsburg jail. The other defendant, Fred Ferguson, will likely be kept at the Greenup jail. ## Son Shot To Death In Kentucky Feud

A peculiar coincidence and a sad tragedy occurred Monday when Mrs. Katherine Vanes of 42 East Eleventh street, went to Prestonburg, Ky., on a visit to her son, Monroe, and found him dead, with a bullet hole through his head.

Mrs. Vanes lives here with her mother and daughter and Sunday she received a letter from her son, Monroe Vanes, in Prestonburg, Ky., asking her to come and sign a deed that he was about to make out. Accordingly, she started on the journey Monday morning and about two hours after she left a telegram was received from Doll Gibson, who lives at Prestonburg which contained the following short but awful message:

"Monroe Vance got shot and killed. Come at once!"

The message threw the household into consternation and a telephone inquiry was immediately sent to his brother Wash Vanes who resides at Prestonburg. Wash knew nothing of it, but it was found on inquiry that Monroe had been shot and killed just as the massage had stated.

Details of the affair are not known, as no word has been received as yet from Mrs. Vanes and it is not known whether she has reached Prestonburg. However the brother, Wash Vanes, stated in the telephone message that Monroe was shot during a feud.

# Black Fork Man Made Escape In Shadow Of The Ironton Co. Jail

Ironton, O., Mar. 20.—Edward Riley, of Black Fork, who was being brought to the county jail by two constables to await the action of the grand jury on a charge of attempted criminal assault, made a sensational get-away in this city Monday evening.

Constables Louis Cook and J. P. Hanegen had taken Riley to a restaurant to get his supper and then started with him to the county jail. Just as they started up the jail steps, Riley, who was between the constables, shoved them to one side and darted down an alley. A number of children ran between the officers and the fugitive and kept them from firing at him. The result was that Riley made good his escape.

Riley is accused of an attempt to criminally assault Miss Hazel Davis, a pretty young school teacher, whose home is at South Point, but who has been teaching at Peach Orchard, near Black Fork.

Last Thursday morning, Miss Davis, who boards with "Grandma" Hanagen, Deputy Constable Hanagen's mother, who lives about half a mile from the school building, started for the school house in company with a young son of Isaac Smith. To get to the school house from Mrs. Hanagen's it is necessary to pass through a small thicket. It is thought that the man had planned to attack Miss Davis at this point, but when he saw the boy with her he changed his mind and ran around by a circuitous route to the spring from which the water is procured for the school. Here he waited until three little girl pupils, Ira Mullen, Lizzie Miller and Della Cook, came from the school to get a bucket of water.

The man at the spring told the children to run back and tell their teacher not to take up school, but to send back to Mrs. Hanagen's at once as she was badly wanted. Miss Davis fearing that something had been said to Mrs. Hanagen hurried back as fast as she could. As soon as she neared the thicket she saw a young man running toward her, and fearing harm she fled as rapidly as she could to her boarding house. Almost in the same breath she and Mrs. Hanagen asked each other what was wrong.

The alarm was given and the little girls, who had gone for water, gave such a clear description of Riley that he was placed under arrest Monday morning, and arraigned before Squire Oyer. The Mullen and Cook girls positively identified Riley as the man who had sent the message to their teacher and he was held to the grand jury.

Riley is about 25 years of age and married. He has a wife and three children.

He is described as being five feet, six inches in height and has a lump on one of his cheeks, which makes him appear as though he had a big chew of tobacco in his mouth. When he made his escape he wore dark clothes and a light hat.

## Looms Up As A Statesman

The fame of Roy McElhaney, the Biggs house barber, a rising politician, is spreading. On Monday he received a letter from Cleveland addressed "Hon. Roy McElhaney, the Coming Congressman." Roy bears all honors with modesty, but is permitting no let up to his active canvass for the Republican nomination for county clerk.

### Was Stranded.

Anton Pentscheck, a young German, who has been working on a railroad in Virginia, got stranded here Monday and appealed for a pass to Cincinnati. His request was refused.

## SCIATICA IS A FORM OF NEURALGIA

*Rest and Tonic Treatment Will Cure This So-called Sciatic Rheumatism.*

Sciatica is neuralgia of the sciatic nerve. Its origin is generally rheumatic and is the direct result of taking cold. For this reason the disease is commonly known as "sciatic rheumatism."

Lack of blood is almost always associated with neuralgia. One medical authority has defined neuralgia as "the cry of the nerves for better blood." This is true because the nerves receive their nourishment through the blood. Build up the blood, the impoverished nerves are fed and the neuralgic pains disappear.

Absolute rest is the best aid to proper medical treatment. Rest and Dr. Williams' Pink Pills will cure most cases.

Mrs. Mary Noll, of No. 2261 Archer avenue, Chicago, Ill., was cured by this treatment. She says:

"I was afflicted with sciatic rheumatism for about five years. I had been in good health up to that sickness, which began with sharp, twisting pains in my left leg and gradually grew worse until I had to go on crutches. I was living in Kansas City at the time and after the doctors there had failed to relieve me, I went to Excelsior Springs, Mo., and took the baths. I was able to leave there without my crutches and felt better for a time and could walk quite well, but had to take the doctors' medicine all the time.

"After moving to Chicago the old trouble returned worse than ever. My leg would become swollen and the pains made my life a misery. At times I would fall to the floor. I then tried specialists but with no benefit. I began the use of Dr. Williams' Pink Pills after reading of a case like mine that had been cured by them. I didn't have much faith in the pills, but after the second box I began to feel better. I took several boxes and was able to walk without fear of falling. The pills made me strong and stopped the sharp pains. I recommend them heartily for I think they will cure if given a fair trial."

Send today for a copy of our booklet, "Diseases of the Nervous System." It is free upon a postal card request.

Dr. Williams' Pink Pills are sold by all druggists, or sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for $2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

# Ries Gave Fine Talk

One of the best known Socialists in America, Prof. Ries, of Toledo, O., lectured Monday night to a large and enthusiastic audience which completely filled the old Findlay street Evangelical church.

Prof Reis is the author of "Men and Mules," "Monkeys and Monkeyisms," and several other well known books, and is one of the highest authorities on economical subjects in the United States.

The professor spoke on the general topics of Socialism, and introduced into his speech many witty and sarcastic remarks taken from his different books. After the lecture a large number of his books were purchased by the audience.

### Accuses Reece.

Mrs. Jos. Sally appeared at the city prison Monday afternoon and identified Virgil Reese, the check forger, as a man who last summer had stolen a $33 suit from her home and jumped a board bill of $3.50. He at the time sailed under the name of Harry Rowe and claimed he was a cement worker of Chillicothe.

A woman friend called to see Reese Sunday night and on the strength of her visit the forger is being supplied with meals from a nearby restaurant.

### A Day of Service at the U. B.

Sunday was a day well filled with religious service at the United Brethren. Helpful truths were gleaned from the study of "The Empty Tomb." Clearer visions of Christ's purposes and of Divinity were secured. With three preaching services, Rev. Howard had a somewhat strenuous day. A special service with the Knight Templars was conducted at 2:30, the organization being addressed by Rev. Howard. As usual, the choir rendered good gospel music at all services.

### To Close Meat Shop.

Frank Grumme, who has been operating a meat market at 718 John street, has decided to discontinue business the coming Saturday. Mr. Grumme will spend several days on his farm, while one of his cutters, Ben Khite, expects to spend a month with relatives in Pike county.

### To Open Drug Store.

It is understood that Dr. Bennett, who last week moved to Fullerton, Ky., from Warnock P. O., Ky., will start a drug store in the growing village. The foundation has already been laid and is located on a lot near the Upper Ferry landing, which he purchased from Capt. G. W. Davis.

### Many Are Moving.

Not in years have farmers changed locations as this spring. Wagons loaded with furniture are now daily seen upon the streets and most of them belong to farmers seeking places on which to experiment at tobacco raising.

# Easter Dance Was Splendid Success

The Easter dance given by the Central Labor Council at Kendall hall, Monday night, was one of the greatest successes of the season both financially for the Labor Council and as to the pleasure and entertainment afforded the guests. The big crowd was easily handled for every one there seemed to take the burden upon himself to see that all had a good time and get his money's worth of pleasure. Three hundred and eighty tickets were sold at the door and many more were sold that were not presented.

The music furnished by the White orchestra was high class. Their time was excellent and it required no effort to follow it. Twenty regular dances were given with several extras. Two-steps and waltzes were alternated for the regular dances and the extras were four-steps, minuets, and other popular dances.

The committees in charge are to be highly complimented on their perfect management and the courteous treatment afforded everybody.

W. L. Baker was chairman of the entertainment committee assisted by numerous sub-committees. Joe Diener acted as floor manager with Charles Flynn as assistant. They were assisted by N. L. Russell, Charles Grice and Charles Carson and James Jackman as special floor managers. Zell Neff attended the door and Dave Bauer looked after the sale of tickets. The check room was in charge of Roy McElhaney and Charles Mays.

Many out-of-town guests were present from Ironton, Waverly, South Webster and other surrounding points.

The Central Labor Council will move to its new quarters in the Carr building this week and will hold open house there Thursday night. They extend a hearty welcome to all union men in the city.

### Is Administrator.

Walter Lemon was appointed administrator of the estate of Thompson Webb, deceased, by probate court Monday. The value of the estate is placed at about $400 including both personal and real estate.

### Start April 12th.

The plans for the Second Presbyterian tabernacle were received Monday from the Smith Lumber Co. Building will commence on April 12th.

The song service at St. Mary's church Easter Sunday was up to the usual standard. La Hache's "Veni Creator" was of particular merit.

## IT WAS ECZEMA

### Scalp Trouble Puzzled Specialists But Was Easily Cured.

A few months ago the case was reported of a little girl living in Hockensack who was sent to three different hair specialists in New for treatment of a scalp affection which they considered a contagious disease. One went so far as to have her hair shaved off. Later, the trouble was found to be a simple case of eczema, which was cured in a few days by paslam.

In the various forms of skin troubles in both infants and adults, paslam produces beneficial results from the first application. Eczema, acne, herpes, rash, tetter, etc., yield readily to its remarkable curative properties. Occasional applications will quickly banish pimples, blotches and complexion blemishes and will relieve and cure itching feet, scaly scalp, humors, etc.

Paslam can be had for 50 cents at any reliable druggist's, particularly Anuan's Pharmacies, which make a specialty of it. Or the Emergency Laboratories, No. 32 West Twenty-fifth street, New York City, will send a trial supply free by mail to any one who will write for it. This is sufficient to show results in 24 hours.

Gray Hair Restored

My hair was getting quite gray and falling out rapidly and I was troubled with a terrible itching of the scalp. My head was full of dandruff, which fell upon my clothes and kept me continually brushing it off. While on a visit to Rochester I heard of your Sage and Sulphur for the hair. I got a bottle and used it. A few applications relieved the itching, my hair stopped falling out and gradually came back to its natural color. It is now a nice dark brown color, soft, glossy and pliable. Several of my friends want to use it, and I want to know what you will charge me for six bottles of it.

Grew Hair on a Bald Head

For two or three years my hair had been falling out and getting quite thin until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly until now I have used four bottles. The whole top of my head is fairly covered and keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

Burton of Ohio

vs.

Humphrey of Washington

Does Uncle Sam need a ship subsidy? Senator Burton says he does not, and Representative Humphrey, who introduced the ship subsidy bill, says he does. The debate is in Pearson's Magazine for April. In its substance it tells all of the advantages of a subsidized merchant marine to the country, as well as all its disadvantages. It is the first thoroughly informative and simple explanation of the whole ship subsidy idea, and what it means to the people in dollars and cents.

Why miscegenation flourishes in the North is explained in the same issue by a woman. Certain white men encourage the mixing of black and white. The whole truth about the increased cost of living is the subject of another article. How millions are wasted on missionaries is another, and Alfred Henry Lewis tells why Mr. Taft is with the bosses. It is a frank and free explanation of Taft, the man and Taft, the president, by one who knows both. And there are nine splendid short fiction stories

## THE BLOW IMPENDING.

If news which comes from the inner financial circles of New York City is to be relied on, President Taft, whose administrative course so far has been peculiarly ill-starred, is to meet within a week or two one of the most humiliating exposures that it has ever been the lot of a president to experience. As is generally knows Mr. Taft in his runs about the country has rather startled his auditors by impassioned defence of the Payne-Aldrich tariff bill. As the story runs an eastern senator of note, and a Republican, will arise from his seat early in April and make a speech solely on the tariff in which he will show most conclusively that the president, in his defence of the new tariff has been made the victim of a confidence game, the figures and statistics on which he bases his arguments and conclusions being "cooked up" with the purpose of misleading him. The senator will not attack the president, nor make effort to bring ridicule upon him, only in the most kindly spirit will he show convincingly he has been deceived by the interests.

Granting the senator will do that and nothing more, it can still be seen that the president will be placed in a most embarrassing relation not only as regards his immediate auditors but the entire country.

## SUFFICIENT REASONS.

The New York Evening Post says Republican politicians in Washington are dazed at the turn of political events against them and their party. And when they took stock of what happened all in one week and that the very last one it is small wonder they are. Just see how occurrences sum up:

Speaker Cannon reduced to a private in the ranks in the House of Representatives.

Gifford Pinchot sent for by Theodore Roosevelt.

President Taft defending the tariff bill and praising Senator Aldrich

Republicans in Indiana so split they could not adopt a platform in the Indianapolis district.

Republican defeat in municipal elections throughout New York and New England States.

Defeat of Republicans in state senatorial election in the rock-ribbed Republican district of Springfield, Mass.

Overwhelming defeat in the Fourteenth Massachusetts district.

The result of this situation is consternation in Republican ranks in Congress and in the departments of Washington. The moral effect of the Massachusetts election, whether the results achieved are temporary or not, cannot be overcome before the congressional election next fall. At the present writing they see no sunbeams in the situation anywhere.

## THE EFFECTIVE WAY.

A Republican observed the other day that he would change his politics, no not that but his vote. He thought the surest and most effective way to rid of grafting and inefficiency in public offices was to put them in new hands.

Undoubtedly, he is right in his action and his view. Grafting and mal-administration in office are bred by security in the possession thereof, because one of the greatest deterrents to corruption is fear of exposure, a contingency minimized by the office long continuing in one person or party.

We need no further proof of this than the conditions which are now shown to exist in this state. Under the Herrick and Harris administrations graft in state offices was so brazen and common that it does not appear possible it was unknown to those others not guilty of it. And whose duty it was to stop and punish it. Still it continued unrebuked and without public knowledge until there was a partial change in the administration. It is not a hazardous assumption to say grafting would not have been rebuked, that it would have gone on had there been no change. For while the new part of the administration was trying to expose the rottenness the old part was to do its level best to cover it up It wasn't exactly that the latter wanted to encourage thievery, but protect the party from hurt that would come through exposure.

The voter who would serve his state and party best will sometime vote against the party. It is a most mistaken sense of loyalty and most vicious in its effect, which leads him to sustain his party all the time with his vote.

## TO THE MARROW.

The interview Congressman Bannon gave out at the close of last week, marking the opening of contest in the Republican party, lost nothing from its brevity. It rather gained therefrom as it went right to the marrow of the issue between the two factions and befogs it with no side questions.

It is just a simple matter of whether the Republican party shall choose its own candidates or delegates that work to a boss. Every voter can understand that; almost every voter also understands that for a quarter of a century the Republican party of Scioto county has not chosen its own candidates, but Boss Philo Clark has done that for it. Sometimes the party has objected and sought to have its own way and right, but it failed because the Boss had the organization and the money.

It need not be discouraged this time because of failure in the past. Conditions are more favorably to it this year and less favorable to the Boss. There are ten Republicans now who today realize the evils of boss'sm, where there was only one in former campaigns, these have courage and hope, where there was formerly none or little of either. There will be organization and coherency, factors in winning a fight, where both were always heretofore sorely lacking; the Boss no longer is strengthened by the magic force which always bulwarks the victor. Twice in succession has he been ignominously routed in the city, shattering his prestige and disorganizing the mercenary gang, which unbroken power as dispenser of spoils gathered about him.

It will be an open contest, fought on even terms. The lines will be sharply and distinctly drawn and there will this time be leaders, not on one side alone, but on both, who know the game of politics all the way through, knowing no quarter will be expected or given. It will be a struggle where only the strongest will survive. A long time it has been coming, but it has come and it is for the best. Desperate and fearful it will be, but with all that it is best it should come, better now than any other day, because the temper and intelligence of the masses is quickened for it. Poor old Scioto county has suffered ill for many years of bossism and gangism, but the promise at last is she will not rid herself thereof and in the riddance be benefited.

Rumor has it that one of the latest graft probes at Columbus is about to impale "one of the most prominent Democrats in the state." Well, and good, let no guilty man escape, say the people.

Some leading Democrats down at Hot Springs have at last heard there is a Harmon boom for president. The next thing we know they will be clutching at the tail gate of the band wagon.

Have you voted today, or just forgot it like thousands of others.

## A SHOT AT JOHNSON.

"Hon. A. R. Johnson was only absentee."

This was the glaring head line that covered an article in Monday's Portsmouth Blade, in which it was told that President Taft had called the Ohio delegation in congress to the White House to discuss important legislative matters. The article went on to say that Mr. Johnson was out of the city at the time.

We thank the Blade for the information and congratulate it upon the implied rebuke in its big head line. When a congressman runs away from Washington as frequently as does Mr. Johnson to look after his corporation business he is deserving of censure, and the bigger the headline the more it will hit home to Mr. Johnson's constituents.

It is refreshing to again have the Blade coincide with The Times in viewing with distrust the career of this Ironton corporation lawyer misrepresenting this district. It is the first time the Blade has taken a shot at Mr. Johnson since it winged him for voting with the lumber trust and against the people who build little homes. Really the Blade is becoming enlightened. Whether or not the fact that its editor had to tote his oriental rug up stairs at the postoffice, had anything to do with this latest digit at our congressman, is an open question.

## AND DOW WONDERS.

The Hon. W. D. James is sitting up in the Turley building these days and wondering what hit his candidacy for circuit judge. Mr. James came into the race quite early and, by seeing the proper personages, has been laboring under the gay impression that he had the solid support of the Clark organization from Philo on down the line. As Judge James now sees it he has Philo all right but there is trouble about "on down the line."

For instance the most active Osborn boomer was Edgar Millar and Edgar was, is and ever will be, a gangster—organization man. James is saying things and if he is set up on a shelf, as it now seems he will be, he may explode with indignation.

We never realized how slow Philadelphia is until she came to entertain the biggest strike in the country and it is next to impossible to learn how she is acquitting herself.

A good deal of fuss and feathers about nothing. We will have no tariff war with Canada. Even the Taft administration knows when it has enough trouble on hand.

The erudite Mansfield News speaks of an unusual sort of grave robbery. Is body-snatching then so common that it is anything else but unusual?

How much we will annex seems to be quite well settled. Now to annex.

## The Boss of the Establishment

He Decides That Poker Parties Must Not Be Held in His Household.

Copyright, 1910, by the New York Evening Telegram, (N. Y. Herald Company.) All rights reserved.

BY AMERE MANN

The Wife of the Boss of the Establishment was going on a little journey to her mother's home. The Boss had acquiesced in the trip as the lesser of two evils—the other, needless to say, being a proposition from his mother-in-law to the effect that if the Boss could not spare her daughter for a week she herself would try to get away for a visit to "both her children."

"I think it would do you good to get away for a little while," said the Boss, briskly, the moment the fatal alternative met his eye in the eight page letter his wife had handed him across the breakfast table.

The Boss' Wife beamed. As a rule the task of persuading him that it was essential or desirable for her to leave home was one compared with which the seven labors of Hercules seemed parlor tricks.

She was very fond of her mother and really preferred seeing her away from the Boss when their natural affectionate intercourse was uncomplicated by the necessity of preserving the peace between a very set old lady and a very set young man.

"It would be very nice to go," she replied "I haven't seen mamma in such a long while—but I hate to leave you alone, dear. What will you do without anybody to look after you?"

"I'll do very nicely, thank you," said the Boss, dryly, for the idea of dependence in any direction was distasteful to him. "I'll keep bachelor's hall."

"But who'll make your bed, and fix your shirt buttons, and get out your socks, and brush your clothes, and sew on your buttons, and make your coffee, and hand you your paper, and dust and sweep and everything!" protested his better half.

"Easy!" replied the Boss, loftily. "Don't let those matters worry you. I will attend to them. I have often observed there is a lack of system in your housekeeping. I will make a study of the question while you are away and determine how you can improve things."

Time—A week later, as the theatre programmes say. Scene—The same, but different. Oh, so different!

As the Boss' Wife turned the latch key softly, for she was home a day earlier than expected and was bent on surprising the Boss, what seemed an avalanche of newspapers blew toward her. There were only about eighteen—the Boss read three a day—but driven and tossed by a stiff breeze from an open window they looked like a million.

As she walked along the unlighted hallway, groping for the electric light, the desultory drip of water met her ears and, stumbling, she overturned a tin pail, which clanked noisily away from her.

"Who's that?" called the Boss, peremptorily, and a moment later the cold and searching glare of electricity revealed the apartment and the Boss in all their desolation.

"Well! It's you, is it!" exclaimed the coatless, collarless and unshaven shadow of the formerly immaculate Boss. "It's about time you came home! I thought you'd forgotten you had such more details as a husband and a home!"

"IT'S YOU IS IT?' EXCLAIMED THE COATLESS, COLLARLESS AND UNSHAVEN BOSS

"You go and shave immediately!" answered the returning traveller amiably. "You don't expect to kiss me with that face!"

"It's the only face I've got," answered the Boss, gloomily, "and I can't shave—the water's turned off—something the matter with the plumbing. Look out there! The ceiling's still leaking."

The Boss' wife dodged from under and restored to usefulness the pail she had overturned.

It is noticeable that the wife most credulous in other and more important matters always thinks it necessary to verify her husband's assertion that the water has been turned off. True to the rule, the Boss' helpmeet switched on the light in the bath room.

Oh, what a sight for gods and men was there!

All the breakfast and dinner plates in the world were stacked in the bathtub and to the dazed glance of the Boss' Wife all seemed to contain a singularly unappetizing mixture composed of fragments of Roquefort cheese, bits of crackers, match ends and cigarette butts—also there were many empty beer bottles!

"I had a few of the boys in last night for a little game of poker," explained the Boss, weakly.

"So I see!"

For one dazed moment the Boss' wife surveyed the havoc about her. Then she assumed charge.

"You'd better get shaved and when you've finished we'll go to a hotel. This place isn't fit to live in! To-morrow Mary and I will see what can be done with it."

"All right," agreed the Boss, joyfully.

And then his wife couldn't help adding:—"When we get to some place that's clean enough to sit down in you may tell me of your new methods for keeping house."

"My wife thought I couldn't keep house alone for one week," said the Boss of the Establishment to the Contrived Married Man next day, "but I tell you she was simply astounded when she returned home last night!"

Hirsh, McKrone suits at Haas'.

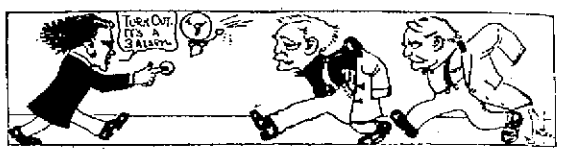

Washington, D. C., Tuesday, March 29.—It takes a fight of the proportions of the one made against Speaker Cannon to bring out new leaders. In the eyes of the people who crowded the galleries Mr. George W. Norris, of Nebraska, was the insurgent leader. To the uninitiated he seemed to be carrying the burden of the fight on his shoulders. As a matter of fact, Mr. Norris was being guided by two members of the House whose characteristics are diametrically opposed. One was Mr. Victor Murdock, of Kansas; the other was Mr. Augustus P. Gardner, of Massachusetts.

"Look at those two men," said a regular republican, "and you will come to the conclusion that with the exception of a fight on the rules they could not meet on common ground. That is not intended as a reflection on either gentlemen. I am merely calling attention to facts.

"Mr. Gardner is an aristocrat, born and bred. He is a millionaire; lives like a millionaire and travels in the best society in Washington.

"'Vic' Murdock, is half a fellow well met. He does not give a flip of his fingers for society. He used to be a police reporter in Chicago Whatever success he has attained as a politician and a newspaper publisher is due to his own energy.

"Until this rules fight started it is doubtful if 'Gussie' and 'Vic' had more than a bowing acquaintance, and yet to-day they are the closest companions imaginable. Perhaps the public will never realize how much Messrs. Gardner and Murdock did in this insurgent movement. If they wanted to they could tell you that they almost had to use violence to keep some of their followers in line, yet they appeared throughout the fight as privates in the ranks, while, as a matter of fact, they were the tacticians who made victory possible. Hats off to the commoner and the aristocrat."

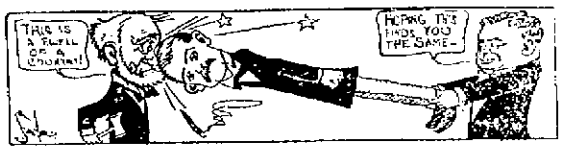

"Here's the man that is always called upon to save the organization," declared a member of the House, as a tall, well built man, with a bushy head of hair, shouldered his way into the House when the fight against Speaker Cannon was at its height." Whenever 'Uncle Joe' gets up against it he sends for 'Jim' Watson. 'Jim' has pulled Mr. Cannon out of many a hole.

"Watson," continued the member, "occupies a peculiar position. He is no longer a member of the House. He ran for Governor of Indiana a year ago and hit the toboggan when the Democrats dragged the liquor question into the campaign. As republican whip of the House he knew every hour of the day and night where he could put his hands on the necessary number of votes to carry out the wishes of the organization. Vice President Sherman, when a member of the House, 'Uncle Joe,' Harry Loudenslager and 'Jim' Watson were boon companions.

"In the days when Mr. Watson was whip his poll of the House prior to a vote was never questioned. If 'Jim' announced that the organization could put something over, the crowd never hesitated to put a proposition to a vote. If he could not round up the votes of the organization the leaders knew no one could and they did not attempt to do so.

"Watson is sadly missed in this House, but there is hopes that he will be back among us again."

## The Onlooker.

All that Speaker Cannon really lost is the power over the Rules Committee and his automobile.

Chicago meat inquiry has ended after lasting eight weeks and 132 witnesses being examined. Must have cost a lot of money, too, because another advance in prices is ordered for this week.

Colonel Roosevelt is earnestly advising the Egyptians to shun politics. In addition to policing the universe Colonel Roosevelt is also willing to burden himself with the politics thereof.

On the other hand, the latest sensation in the shape of a charge that the Grady insurance bill of 1904 was bought through the Legislature is admitted to be "a delicate story."

When he announces that the opposition was composed of "democrats and a fifteen per cent. slough from the republican party" it is evident that "Uncle Joe" Cannon has recovered his spirits and a flow of beautiful, chaste language may be looked for at any moment.

The total number of useful domestic animals on the globe, says a valued exchange, is believed to be about 1,500,000,000. Well, on the hoof or in cold storage as well?

The Carnegie Foundation for the Advancement of Education is prepared to show in its forthcoming report that the country is flooded with poorly trained unfledged, incompetent doctors and lawyers. Probably accounts for the unholy size of some of the commercial fortunes rolled up.

Man kicked himself in the left knee. With the right foot, of course.

"This, ladies and gentleman," said the spieler on a Seeing Washington car, in Vermont avenue, Sunday morning, "is the home of Joseph G. Cannon, who used to be Speaker of the House. They call him the 'Iron Duke of Illinois.' He is getting ready to go to church now." And then "Uncle Joe" went over to the Foundry M. E. Church, where the domicile preached from the text, "The Lord hath need of thee." Which perhaps accounts for the Speaker's pugilistic mood on Monday.

## ★ TRANSIT TRAGEDY. ★

Cleveland, O.—Councilman Spencer will present to the City Council a resolution asking street railway officers to put into operation cars equipped with sleeping facilities, to be run from ten o'clock at night to seven o'clock in the morning.

When you're going home at night
Or in early morning light,
And you really have to travel very far,

What a joy and likewise bliss,
If it ever came to this,
That you journey on a trolley sleeping car!
If you really could lie down
As you speed along uptown
With a pillow for your head 'neath your head
Think how fine it would be
When you're home to find your kids,
For you'd sleep it off while riding in a bed!

But another lovely thing
To us here these cars would bring:
We'd no sooner board one, mind you get in bed,
Than we'd hear a loud voice say,
"This here car don't go no more!
Now step lively there and clear the car ahead!"

March had best set up a roar right away if it be going out like a lion.

There are different ways of looking at a thing. The Detroit News things "Uncle Joe" would make a great insurgent, while the Cleveland Leader thinks he has made a whole bunch of 'em.

It has been a long time since we have heard from our journal old friend, James J. Hill. It is with doubly increased pleasure that we hear him now predicting a long era of good times.

# JUSTICE BREWER DIED SUDDENLY

Washington, March 29.—David Josiah Brewer, associate justice of the United States supreme court for 20 years, died suddenly of apoplexy at his home, No. 1923 Sixteenth street, at 10:30 o'clock last night. He had gone to the bathroom, preparatory to retiring about five minutes before.

Mrs. Brewer heard the sound of a heavy fall and went to investigate. She found her husband unconscious on the floor and immediately hastened next door to the home of Judge Gould of the district supreme court, for assistance.

Judge Gould hurried to his neighbor and helped carry the jurist to his bed. His pulse then seemed strong, but quickly grew faint, and before physicians, who had been summoned, arrived the justice was dead.

Mr. Brewer apparently was in perfect health up to the time the fatal stroke came. He had been attending diligently to his work on the bench and had not complained of any illness or even indisposition.

By his death one of the most able jurists who ever sat on the supreme court passes away. Mr. Brewer was the peer of any man who has occupied a seat on that tribunal in this generation, and, admittedly, was the superior of a number of men who have worn the judicial ermine. He combined a profound knowledge of the law with an unusual ability to attune its interpretation to the national development.

His construction of the constitution, while liberal, was never tainted with a radicalism which seemed to many conservative citizens to contain a menace to the American judicial system.

He alone of all the justices of the supreme court took occasion to resent certain criticisms of the courts which former President Roosevelt uttered during the last two or three years of his administration. He was a liberal exponent of the doctrine that the judiciary stood as a bulwark against encroachments upon the liberties of the American people and regarded it as a danger to constitutional government to teach disrespect of the courts.

He was born in Asia Minor in 1837, his parents being missionaries. He was named to the supreme bench from Kansas City by President Harrison in 1890.

(By Associated Press.)

Washington, March 29.—The death of Associate Justice Brewer of the United States supreme court, caused a profound regret here and throughout the country. Many calls were made at the Brewer residence today and messages of condolences arrived in great numbers.

President Taft, upon his arrival from New York, was much distressed at the details of the death of his friend.

would have been about as welcome to A. Cooper, of Oswego, N. Y., as a merciless lung-racking cough that defied all remedies for years. "It was most troublesome at night," he writes, "nothing helped me till I used Dr. King's New Discovery, which cured me completely. I never cough at night now." Millions know its matchless merit for stubborn colds, obstinate coughs, sore lungs, lagrippe, asthma, hemorrhage, croup, whooping cough, or hay fever. It relieves quickly and never fails to satisfy. ### LICENSED TO MARRY

Sidney B. Burke, aged 35, a shoeworker of Lynchburg, Va., obtained a license Tuesday to marry Mrs. Susan Cole, aged 20, of Scioto county. Squire Hall officiated.

## Decision Due On Saturday

The hearing on the objections to certain bills in the first and final account of W. G. Cole, executor of George W. Cole, deceased, in probate court Monday was continued till Saturday when the court will hear the remainder of the testimony and arguments and pass upon the merits of the bills.

Donald, a young son of Henry Stewart, an N. & W. engineer of 1108 Offnere street, is ill with measles.

Mrs. William Stokely, Sr., continues dangerously ill at her home on Jackson avenue.

# Fireman Ed Dancer Married March 16th

Edward P. Dancer, of the Seventh street fire department, certainly slipped it over on his fellow firemen and friends in a manner that will make them sit up and take notice.

Rumors as to his intended marriage have been floating through the air for many weeks, but no one seemed to know just when it was to take place, though he had informed some of his friends that he was going to quit living a bachelor's life in the near future.

The story, however, got out Tuesday, when Rev. N. J. Eason made his return of the marriage to the probate office. It says that on the 10th day of March he united in marriage Mr. Edward Dancer and Miss Myrtle Lambert. The story is thus told and Mr. Dancer and bride are now ready to receive the congratulations of their friends.

The bride is a popular young shoeworker and resides at 1022 Chillicothe street.

# LIGHT VOTE ON BOND ISSUE

Lacking both in interest and special incident the result of the school bond election held Tuesday is very much in doubt.

The vote over town was woefully light and there did not seem to be any fight for or against the issue. Through some misunderstanding High school pupils did not appear at the polls to work for the issue as originally planned so that there was little or any stir anywhere. In Precinct A of the First ward only 44 votes had been polled up to 1:30 out of a total electorate of 425. In Precinct B of the same ward there were 45 votes cast at that hour but in Precinct D the number was only 27. In Precinct F of the Fourth ward 38 had voted up to one o'clock. It is not thought that the vote will average 100 to the precinct.

Supt. Frank Appel of the public schools, though still hopeful of the issue carrying really felt alarmed. At any rate he did not feel disposed to make any forecasts of the outcome. The feeling generally was that if the issue does carry it will be solely due to the fact that people opposed to the additional bond issue will stay away from the polls while those favoring same will make it a point to vote.

A roan mare belonging to Bob Jones was found wandering in the East End last night and was put up and its owner notified Tuesday morning.

## Want to Get Postmaster

Washington, D. C., Mar. 29.—Civil service examinations will be held April 23 at Portsmouth for postmaster at Hotch, Ohio.

## To Tear Out The Fixtures

Henry Ruel stated Tuesday that he would begin tearing out the fixtures at his place of business on Chillicothe street, Wednesday, but that did not necessarily mean that he expected to quit business. He says the fixtures will be crated in the hope that he will have use for them within the next two years. He refuses to say as to what business he will engage in, despite the fact that he has been given credit of running everything from a bank to a chicked farm.

Clarence Fritts, of Wheelersburg, is in Portsmouth as guest of his brother, C. A. Fritts.

## Did Not Fight Over River

Frank "Rabbit" Ray writes a card to The Times in which he states that he was not mixed up in any fight in South Portsmouth Saturday. He further says that he has not once visited the soft drink parlors in that thriving hamlet and knows nothing whatever as to any trouble that may have occurred. Ray, however, does not deny having a scrap on Saturday with a well known employee of the Street Railway Co., and in which he decorated his opponent's face with a black eye. It so happens that the fight was in the East End and was the result of Ray being called a disreputable name.

# Uncle Sam Has Job

Do you want a $630 job? If you do you can get one from Uncle Sam, provided you can show you are better fit for it than any one of a matter of forty or fifty million other citizens, who have an equal opportunity with you to secure regardless of race, color, previous condition of servitude, or sex. There is a vacancy, or rather there is going to be one in the postmastership of Hatch and the government wants to secure a new man or a new woman to fill it. To that end it will hold an examination of all candidates who choose to apply at the postoffice in Portsmouth on the 23rd of April. Any citizen of the United States, male or female above the age of 21 is eligible. Applications and instructions can be had from the present postmaster at Hatch or from W. F. Griver, secretary of the Portsmouth postoffice and applications must be filed with the United States civil service commission at Washington at least seven days before the date of examination. Supposably the fittest of the candidates will win.

Where is Hatch? It is a little cross roads settlement in Pike county, back of Barden, this county. If you have any idea of applying for the job as postmaster there, we advise you to get a guarantee from Uncle Sam that the emoluments and perquisites thereof are $630, our idea is they are much nearer $6.30.

## Free Sample Aids Old Men

The sudden change from years of activity of both body and mind to the quiet of later years causes the human system to undergo many changes, chief of which is in the digestive organs.

It becomes harder and harder to get the bowels to move promptly and regularly and in consequence many elderly men suffer not only from the basic trouble, constipation, but from indigestion, headache, belching, sour stomach, drowsiness after eating and similar annoyances. It is first of all necessary to keep the bowels open and then to tone the digestive muscles so as to get them to again do their work naturally. A violent cathartic or purgative is not only unnecessary but harmful. And something mild will do the work just as well.

After you have got through experimenting with salts and pills and waters of various kinds, and have become convinced that these do help temporary good at best, then try Dr. Caldwell's Syrup Pepsin, a mild, gentle, pleasant-tasting laxative tonic that is especially adapted to the requirements of old people, women and children, and yet is effective enough for anybody. Your druggist, who has handled it successfully for a quarter of a century, will sell you a bottle for fifty cents or one dollar, but if you want to make a test of it before spending any money send your name and address to Dr. Caldwell and he will gladly send you a sample bottle free of charge.

This remedy is rapidly displacing all other forms of medication for the cure of stomach, liver and bowel trouble, and families like Mr. D. P. Wisher's of Sycamore, Ill., and Mrs. Carrie Culler's of 128 N. Notre Dame street, South Bend, Ind., are now never without it in the house. They have tested it and know its grand value to every member of the family.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you by detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R 610 Caldwell building, Monticello, Ill.

## Undermuslins That Are Featured by Dainty Designs and Perfection of Fit

With the advent of the new spring suit, the natural desire arises for the daintiest of undermuslins to make a perfect whole—the new undermuslins are ready! And of prime importance is the self-evident truth that prices are attractively low. Especially is this noticeable in the more elaborate creations in French lingerie of which many splendid examples are now shown for the first time. There is

# ANOTHER GRAFTER ARRESTED MONDAY

Columbus, O., March 29.—D. W. Dinsmore, a traveling salesman indicted for conspiring with Mark Slater to defraud the state was arrested late Monday in Chicago.

Dinsmore at one time traveled for the firm of Slade, Hipp & Meloy, of Chicago. Later he left their employ and it was believed entered the business of dealing in binders' supplies.

In the investigation of the State Printing Department in order to ascertain the amount of the alleged peculations between John E. Breisford, of Dayton, and Mark Slater, bills were discovered which had been sold to the state by Dinsmore. In most of them, it is alleged, no trace could be found where a bulk of goods was ever delivered to the state. Because of the rules of evidence it was impossible to get before the jury the books of Slade, Hipp & Meloy.

Since Dinsmore has been found and will be returned the graft cases assume an interesting phase. The Beatty Committee can summon Dinsmore to appear. Should he be given the immunity plunge. Dinsmore could tell much about the grafting in the State Printing department, if there was any with which he was connected.

This morning Governor Harmon was requested to issue a requisition for the return of Dinsmore to this city. There is a total of six indictments against him, each of which contains three counts. The total amount of goods purchased from D. W. Dinsmore, as shown by the bills under his name, was $28,917.73. There was actually delivered, it is alleged, goods amounting to $6,190.67 making the alleged graft $22,917.73. The first bill amounted to $4,293.18, and no trace whatever of a delivery of a pound of the materials can be traced through the railroads or as having been received at the state bindery, it is said.

The second bill amounted to $5,208.94, and about one half was "padded."

The third bill calls for goods in the amount of $3,801.90, and only 50 pounds of freight can be traced under its date.

The fourth bill amounted to $3,752.82; fifth $6,193.93 and the sixth $5,663.95, all of which, it is said were "padded."

The fifth bill contained 300 packs of gold leaf.

(By United Press.)

Columbus, O., March 29.— The Beatty probers announced today that no immunity will be granted D. W. Dinsmore on indictment charging him with conspiring with Mark Slater to defraud the state with padding bills. They believe they can convict Slater without Dinsmore's testimony.

# ADAMS CO. BILL INTRODUCED

Columbus, O., March 29.—The recent Adams county courthouse fire was recalled through the bill of Senator Frank Cleveager providing that the county commissioners might issue bonds to rebuild it without submitting the question to a vote of the people.

This may invite war with Peebles on the part of West Union, as the former town wants the county seat. The passage of this bill would fix it at West Union.

## Will Move to Portsmouth

J. W. Orton, who has for years been traveling for the Portsmouth Stove and Range works, arrived in the city Monday, preparatory to moving his family from Northampton, Mass., to Portsmouth.

Fire did considerable damage in the cupola of Foster's store foundry at Ironton Monday.

# MAJESTIC BILL IS PLEASING

The Majestic theater maintained its enviable reputation for high class vaudeville by the presentation of three high class acts at the popular play house, Monday evening, when two crowded houses greeted the opening bill for the first half of the present week.

Perhaps the headliner should be put down as the "Musical Silvers." This act was greeted by round after round of applause, for catchy, comedy music appeals strongly to the natures of theater-goers in this city.

The Manning Trio is fully up to the standard, while the work of the "Scotch Lady" in her quaint songs and native costumes, is above the ordinary. One of the acts, a slack wire performer, failed to appear in time, much to the regret of the management. However, the performer is now on the ground and his coming will round out the splendid bill in nice shape. The show closes with the usual excellent motion pictures.

Dr. A. F. Hill of Vanceburg, Ky., formerly of East Portsmouth was a business visitor here Monday.

W. J. Henry returned Monday from a busines trip to Cincinnati.

### WHY SALVES FAIL TO CURE ECZEMA

Scientists are now agreed that the eczema germs are lodged not in the outer skin or epidermis, but in the inner skin. Hence, a penetrating liquid is required, not an outward salve that clogs the pores.

We recommend to all eczema patients the standard prescription Oil of Wintergreen as compounded in liquid form known as D. D. D. Prescription. A trial bottle of this D. D. D. Prescription, at only 25 cents, will instantly relieve the itch. We have sold and recommended this remedy for years, and know of wonderful cures from its use. We recommend it to our patrons.

# Billy Butt-In Gets A Comet Question

Mr. William Butt-In, the Times Weather Man, acknowledges, with pleasure, the receipt of the following communication:

Portsmouth, O., Mar. 28, 1910.
Mr. Billy Butt-In, Times Office.

Dear Sir:—I have been figuring on a problem in the last few days, but so far I have been unable to solve it. Knowing that you are the best there is on such questions, I am therefore forced to call on you to help me out. Here it is:

"If Halley's comet raises the thermometer to 85 degres at a distance of 175,000,000 miles, how hot will it get when she sweeps the earth?"

That ought to be an easy one for you, Billy. They say I have figured it, the answer came out. "Hot as Hades," but I do not know whether or not that is right.

A TIMES READER.

In reply Mr. Butt-In desires to say that never having been to Hades, and never expecting to go to that resort, he does not feel qualified to pass upon the gentleman's comparison. Mr. Butt-In is of the opinion, however, that it will be quite warm when Halley's comet gets into real action.

# Olive Hill Banker Faces Indictment

Lexington, Ky., Mar. 29.—W. J. Rice, cashier and founder of the Imperial bank, Olive Hill, Ky., is under arrest and indictment and the bank has been placed in the hands of receiver, according to a dispatch from there today. Rice is accused of embezzlement, securing money by false pretense and making a false report of the bank's condition.

The bank had, according to the last statement, issued by Rice, assets of more than $9000, and liabilities of about $2000.

Rice also had founded banks at Middlesboro and Carter, Ky., and the protest of drafts from the Middlesboro bank, of which the Imperial bank was a depository, caused the trouble.

# Adam Pfau Stranded In Auto

That there is a highly commendable brotherly feeling existing between autoists, is shown by the action of L. C. Turley, who drove his car to Sciotoville, late Monday evening, to render what assistance he could to Adam Pfau and family, whose machine had gone dead on a return trip to Ironton.

It was nearly 10:30 when word was received that Mr. Pfau's machine had broken down at the upper end of Sciotoville. Mr. Turley had just returned from a long drive, but he immediately offered to transport a machinist to the scene and in fifteen minutes had landed him there. The car was repaired within one-half hour, and the homebound trip completed in safety.

# ORPHEUM HAS A FINE BILL

High class in every feature, is the bill offered to the patrons of the Orpheum theater for the first half of this week, and the two splendid houses that greeted the opening performances Monday evening went home fully satisfied that they had more than received their money's worth. There is not a dull moment throughout the entire program, and lovers of vaudeville will do well to witness the rendition of the bill offered by Manager Russell.

Devoe & Davis, in comedy and eccentric dancing could have occupied the whole of the evening, so classy was their act. They are graceful, pretty and captivating and had the house with them from the first to the last step.

Roscoe & Sims. Well, they are comical, all right, and then some and if you don't want to laugh, don't see them—that's all!

Napoleon Dermont as a cartoonist, showed what is possible with the brush as well as paint. Whether black or white drawing, or doing color work he is an artist of the first water, and his work was highly commented upon. The show closes with a splendid motion picture, as is always the case at Manager Russell's cosy and popular play house.

Pete McNamara spent Monday with relatives and friends in Chillicothe.

# SAYS HUSBAND THREATENED TO KILL HER

That he had threatened to kill her on the 13th of May, 1908, is the chief ground upon which Mary Porter of Harrisonville, asks in a petition for a divorce from Davison Porter, filed in Common Pleas court Tuesday by Attorney James S. Thomas.

The petition states that they were married in Portsmouth in March, 1908, and that they have one child, Alton, fifteen months old. That he had threatened to kill her and that she believing from the manner in which the threat was made that he intended to carry his threats into execution left him and retreated to the home of her parents in Harrisonville. She further charges gross neglect of duty, thereby compelling her to depend upon the charity of friends for support for herself and the child.

A decree of divorce and the custody of the child is asked for.

# SISTER DIED AT IRONTON ON MONDAY

The Irontonian says that the angel of death visited the home of Mr. and Mrs. Thos. Sager of Ironton at an early hour Monday morning and took from it their youngest daughter, Martha.

Martha lovingly called by her family and friends, "Tot," has been a patient sufferer from lung trouble for over eighteen months.

Miss Martha was born in Ironton September 5th, 1888, and consequently was 21 years of age. She was one of Ironton's most beautiful and cultured young women, was well and favorably known, and will be sadly missed by her family and a host of friends. Besides her parents there are left to mourn her loss, two sisters and one brother. They are Mrs. George Earl of this city, Mrs. Chas. Bennett of Portsmouth and John Sagar of this city. The funeral will take place from the residence at 2 p. m. Wednesday. Burial at Woodland cemetery.

# WALTER BOWEN WAS SCALDED

A series accident occurred late Monday afternoon at the N. & W. terminals when ex-Policeman Walter Bowen was severely scalded by hot water and steam out of the yard engine.

Bowen was working with several other laborers in a large ash pit when the accident occurred. It seems that the pit is very deep and that the railroad tracks pass over the heads of the workmen. While Bowen was busily engaged in tearing away some pieces of rack, the N. & W. yard engine came along on the track directly over his head, and stopped. The engineer leaned over and requested Bowen to open a steam cock on the bottom of the engine. Bowen complied with the request and climbed up and opened the spigot.

Immediately he was enveloped in a cloud of hot water and steam which burned him terribly and took all the flesh off the right side of his body. The injured man with an agonized scream dropped to the bottom of the pit. However he was able to get to the car with the assistance of his fellow-laborers and he was then taken to his home on the corner of Fourteenth and Kinney streets where he was attended by Dr. Halderman.

It is not yet known whether the burns will prove fatal. Bowen's whole right side is a mass of blisters and he is in a most serious condition.

# MYSTERY IN ILLNESS OF HAMPTON

Hampton was seen staggering along the pike Monday evening followed by a number of boys. Kinder took him into his home to save him from arrest. He became very ill during the night and lapsed into unconsciousness. He was still in a state of coma Tuesday afternoon, it was said and arrangements were under way for his removal to the hospital. ## New Ferry Is Nearly Ready

Capt. John Davis received word from Jeffersonville, Ind., Tuesday morning that the hull of the new ferry boat being constructed for the Fullerton-Portsmouth trade was nearing completion. When it is finished it will be floated to Cincinnati, where the Frisby company will install the machinery, which will be the best in the world. The boat, which will be 115 feet in length will be equipped with its own electric light plant and will have one of the most powerful search lights of any boat on the Ohio. The new boat will not be called the Emily, the owners thinking that a hoodoo is attached to that name. It may be named "Hazel" after one of Capt. Davis' most charming daughters.

# Buried By A Cave-In

Several workmen were buried under an avalanche of stones and dirt Tuesday morning at the Portsmouth Paving Brick Co. brickyard, when the sides of a sewer excavation that they were working in, gave way and poured down on their heads.

Fortunately, there were several people who witnessed the accident and the laborers were quickly extricated by a little diligent shoveling.

The men were not hurt to any great extent, as they were under the mass of debris only a short time. However a few bruises are in evidence as a reminder of the sudden cave-in.

# Locate Cause Of Recent Collision

Columbus, O., March 29.—It has been discovered by officials of the Norfolk & Western Railroad company that the city electric light at the Fair avenue crossing, shining through the switch light of the railroad, modified the color of the lamp and deceived the engineer, causing the recent headon collision on the N. & W. tracks at Fair avenue.

Blame for the wreck was at first put on the shoulders of the engineer of the passenger train. He protested innocence and a party of officials on a special train went to the sseene.

Approaching the Fair avenue crossing switch from the north, it was demonstrated that, although the switch light was set red for danger, its color was modified by the city street light shining through it from the opposite side of the crossing. The engineer has been relieved of all blame for the wreck, which badly splintered several freight cars and the passenger locomotive. The switch light has been changed so that the proper color is shown on all occasions.

A fine crowd attended and the Coxes proved themselves royal entertainers, presenting a splendid program that was interesting throughout.

**To Stop a Cough in a Hurry.**

With this recipe you can make a pint of cough remedy at home in five minutes. A few doses usually conquer the most obstinate cough. Simple as it is, no better remedy can be had at any price.

Put 2 1-2 oz. of Pinex (fifty cents' worth) in a clean pint bottle, and fill up with Granulated Sugar Syrup, made as follows: Take a pint of Granulated Sugar, add 1-2 pint of warm water and stir for two minutes. Take a teaspoonful every one, two or three hours. The taste is very pleasant—children take it willingly. Splendid, too, for colds, chest pains, whooping cough, bronchitis, etc.

Granulated Sugar makes the best syrup. Pinex, as you probably know, is the most valuable concentrated compound of Norway White Pine Extract. None of the weaker pine preparations will take its place. If your druggist hasn't the real Pinex, he can easily get it for you.

Strained honey can be used instead of the syrup, and makes a very fine honey and pine tar cough syrup.

## FADS FOR WOMEN

Though there are freak hats this season, the Easter millinery is exceedingly attractive.

One of the prettiest hats seen at a recent opening was a flat Leghorn wreathed with the daintiest roses, their foliage made from the finest of white dotted swiss.

The roses were of the louse kind, large, with centres formed from pieces of pale yellow floss silk.

Character was given to this charming bit of millinery by a bow of pale almond green velvet ribbon placed on the left side.

Any girl or woman who is skilled only slightly in the use of the paint brush may make old wings or quills look like new by painting them any coloring preferred.

I saw some soiled white wings the other day that had been brushed into Persian effects, soft pastel tints of pink, green and blue, all blended together and running into each other. As the amateur artist remarked, "I chose this kind of design because then if I happened to get a blurred effect, as I feared I might, it would appear to have been intentional."

A touch of black on a colored gown is always effective and I fancy we shall often see this combination during the coming season.

Already black silk collars and cuffs are much used as a finish to colored linen suits, also black ties and cravats, and it is predicted that fluffy black chiffon jabots will be worn later on.

One of the prettiest dispositions of black was seen recently on a house dress of king's blue linen. The style was a simple shirtwaist with turn-over collar and cuffs of white linen dotted with blue. These were furnished with long slits buttonholed, through which black ribbon is passed and then tied in little bows. The belt is of black ribbon.

Those women who cannot embroider, but who can do plain sewing, may decorate accessories, dresses, &c., with soutache braid and be up to date.

For instance, a set of hat, coat collar and cuffs, also a stock for the waist, is being fashioned by a girl as her Lenten work. These will be pretty when finished.

The material she is using is fine white linen, stamped for braiding, and fine blue soutache is used. All the accesories are to be edged with a narrow embroidery and a frill of the same will be sewed around the outer edge of the hat.

## Times Daily Recipes

**Sea Foam Candy.**

Put into a saucepan three cups sugar, two-thirds cup corn syrup and one-half cupful water. Boil until a little dropped into cold water spins a brittle thread. Beat the whites of two eggs stiff, turn the hot syrup over it in a thin stream, beating all the time until nearly stiff. Add one cupful nut meats of any kind preferred and turn out on a buttered plate.

**Coconnut Wafers.**

Cream together one cupful sugar and two tablespoonfuls butter. Add gradually one-half cup milk, one cupful coconnut, two well beaten eggs, a grating of nutmeg, six drops of vanilla and, lastly, two cupfuls flour sifted with two teaspoonfuls baking powder. This makes the dough stiff. In rolling out take a small portion at a time, roll thin, cut out and bake a golden brown in a hot oven.

**Extract of Vanilla.**

Cut and chop fine two or three pods, then pound in a mortar until thoroughly bruised; add to them a little powdered sugar; put into a pint bottle; add a tablespoonful of water and let stand over night; the next day pour over the sugar and vanilla one-half pint spirits of wine; cork and let stand for a month before using; shake every day.

**Vanilla Flavoring.**

Another way of preparing the beans for flavoring is in this manner: Split four beans and clip into bits with scissors; scrape out the seeds and put with the husks into a bottle and pour over them one pint brandy or whiskey; cork tightly and shake the bottle frequently for the first month; then it will be ready to use and will keep for years.

**Vanilla Stick to Flavor.**

You can't use the stick for favoring unless with hot melted chocolate, custard or milk. It is nice to use with puddings and creams, as all that is necessary is to stir the hot mixture with the stick until it is as strong of vanilla as is desired. After using rinse off in cold water and lay aside until again needed.

**Plum Duff.**

Make a thick batter, using one cupful flour, sifted, with a teaspoonful and a half baking powder, a saltspoonful salt and milk to make the proper consistency. Grease cups and drop a spoonful of batter in the bottom of each, then fill with canned plums or other fruit. Cover with batter and steam.

For a dressing, cream the yolks of two eggs with a cupful of sugar, add the whites beaten separately and any preferred flavoring. The secret of success lies in the thorough beating. Another way to make plum duff is to mix with a sweet, soft biscuit dough, chopped plums fresh or dried, using a quart of the plums to each pint of flour. Tie in a pudding cloth wrung from hot water, then dredge with sugar and flour, and boil hard three hours without allowing the water to stop boiling.

**Home Made Sausage**

For New York State sausage allow to every forty pounds of fresh pork, lean and a little fat, one pound salt, three ounces pepper, one-half cupful molasses and a little ginger.

For Virginia sausage, allow to fifty pounds meat, one pound salt, a quarter pound pepper, and two tablespoonfuls sage. Put a layer of the meat on the table, then a layer of the seasoning already mixed, then meat again until all is used. Then put through a meat grinder. If you wish to keep fresh for several months pack in flat crocks, preferably with a slight sink in the middle, and bake in the over for three hours.

Put a weight on until cold. This sends the fat to the top. Spread it over evenly and tie closely with paper and cloth.

If you prefer an admixture of lean and fat pork, use three times as much lean as fat. For a small quantity, take seven and a half pounds of clean lean pork and two pounds and one-half larding pork, ground to a fine mince. Add three ounces salt, one of pepper, three-quarters of an ounce of sage and one-half ounce summer savory.

Pack in round muslin bags about half the diameter of a small salt bag. These will keep for months, even in warm weather, if the bag is dipped in melted lard before it is put away. The lard fills all the interstices of the muslin, as it hardens and thus excludes the air. Lean veal may be substituted for pork if desired.

# "DO NOTHING" IS MOTTO OF THE LEGISLATURE

Columbus, March 29.—This is the champion do-nothing legislature. The session has been on practically three months and very little has been accomplished. The state is bending just as fast as it can towards a depleted purse and nothing is being done to avert this.

What is the reason for this? That's easy. If more money is to be raised it is to come from the corporations and these interests seem to have powerful enough grip on the saloons to ki.' off anything curtailing their powers or making them pay more taxes. To date a few scattering bills, mostly inconsequential, have been made laws.

Maybe something will be done in the way of bettering the taxation situation. The senate has done its duty in this respect by passing a one per cent tax rate bill. The house has passed a bill ostensibly establishing such a rate but it turns out that it does nothing of the kind. This week may see something doing with respect to these measures. The people of the state want a one per cent rate and if the general assembly does not give it there will be seen disappointment and probably some new political graves will be dug.

If this general assembly does anything that the good people want it will be because of fear that the people will rise up in their might and anger and do some smiting if their wishes are trampled under foot.

The legislature made a big adoo about going after the bribers who have been trying to corrupt the members but it is dollars to doughnuts that nothing will ever come of the investigation that it is to be made on this account. The chief end of the majority seems to be to choke off every good bill that comes along. It seems to be a question as to whether or not it would not be better to have political bosses to run the legislature as in former years. Then the bosses occasionally would permit a good bill to go through, realizing that their party would get jolted by the people if something was not done in their behalf now and then. In those days the bosses were held accountable for what was done; there was a place to fix the responsibility. Now it is different.

There are no political bosses giving instructions as to what legislation shall be enacted and it is harder to fasten the responsibility upon any one political party for vicious legislation and squelching of good measures. The corporations are playing a different game nowadays. They see the member individually and not through a boss. That is what makes it harder to fix the responsibility. And it is a standoff as to who is the more culpable in this misrepresentation business, the the Republican or the Democratic member.

Superintendent Webb of the Girls' Industrial home, Delaware, is almost ready to throw up his job. After all the promises of help for his institution, the house finance committee cut him off with about one third of the money needed to make the institution fit to live in. The girls are crowded in halls and small rooms about the size of a piano box like sardines in a box. There are no means to separate the vicious girls from those who are not and this association is bad from a moral standpoint. Superintendent Webb complained bitterly here Monday. He and others want to know it is that with the state facing a deficit that the canals can get their usual big allowance of money while institutions which need help badly have their allowances pared down to a point where it is hard to get along. The laundry at the Delaware home was shut down because the machinery is so dilapidated that its use is dangerous and there is no money to make the necessary repairs.

Representative Evans of Stark county is unable to get the house committee on dairy and food products to do anything with his bill to establish a state chemist, who is to be paid a salary of $2,500 a year. The state dairy and food commissioner now pays out about $10,000 a year for analysis and the Evans bill would save the state at least one half of this sum if there was one man to do nothing but this work. The author of the bill is wondering if the chemists who get fat fees for making analysis now have anything to do with the blocking of action on the bill.

## AND ROM WAS NOT PRESENT

# JAMES PITTS IS SEEKING WARRANT

James Pitts, an employe of Charles F. Turner, commission merchant, was on the warpath early Tuesday and it was a lucky thing for a man whom he was hunting, that James did not find him.

The cause of Pitts' wrath was a statement made Monday night by his sixteen-year-old daughter, Verdie. She gave the name of a young man friend and Pitts set out early in the morning to cause his arrest. He called at police headquarters for a warrant but as the young man is said to have gone to Adams county, Pitts was advised to go before a magistrate for the necessary paper.

# Second Church Is In Fine Condition

The auditorium was full at the annual congregational meeting of the Second Presbyterian church, which was held Monday evening. The largest attendance in the history of the church was present, as the pastor has for some time been emphasizing the importance of attending the congregational meetings.

The meeting was called to order with the following officers in charge:

Moderator, Dr. Robertson.

Clerk, Henry Heer.

Tellers, L. T. Spencer, Conrad Roth, Lee Flaker, W. H. Hannon.

The following were elected to succeed themselves as elders: Dr. Sellards, A. C. Williams.

W. M. Briggs was elected as trustee to fill the unexpired term of John Richardson.

H. H. Revare, Clarence Nodler, and L. T. Spencer were elected as trustees to fill vacancies.

W. G. Williams and Alex Littlejohn were elected to succeed themselves as deacons.

Glowing reports of the year's work were received from every society and department, and it could be seen that Second church has just closed the greatest year in its history.

The church treasurer reported that the number of contributors had increased 80 per cent during the past year, the increase in contributions 30 per cent and the amount of benevolence 30 per cent. This is the first time in the history of Second church that a deficiency has not had to be raised at the end of the year. After these facts were reported, the congregation adopted the present financial apportionment plan by a unanimous vote.

The meeting adjourned subject to call of the moderator. A meeting will be called next week to consider and adopt plans for the new church enterprise.

## AN EASY AND HARMLESS WAY TO DARKEN THE HAIR.

Who does not know of the value of sage and sulphur for keeping the hair dark, soft, glossy and in good condition? As a matter of fact, sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than sage and sulphur, if properly prepared. The Wyeth Chemical Company, 74 Cortlandt St., New York City, put up an ideal preparation of this kind, called Wyeth's Sage and Sulphur. It is sold by all leading druggists for 50c. and $1.00 a bottle, or is sent direct by the manufacturers upon receipt of price.

## What Taft Said To Quartette

Columbus, O., March 28.—Supporters of the Woods utilities bill welcomed Monday as friends its returning enemies, Representatives Edgar Ervin of Meigs, A. J. Crawford of Athens, Judge Noah Dever of Scioto and George M. Wilber of Union, who went to Washington to get a White House decree of death to the measure. The trip made votes for the bill, according to its pushers. President Taft told the four messengers that the White House was not a slaughter house. Then the four turned right around and came back home and only hope that none of their colleagues will ask them how they enjoyed the trip.

# FAMILY ROW WAS AIRED

Jack Moler, a former Excelsior Shoe company employe, was brought to police headquarters Monday evening on complaint that he was creating a family disturbance.

Officer McCarty, who was detailed on the case, found Moler and his wife quarreling at the home of her mother, Mrs. Williams, of No. 156 East Front street. She is said to have attempted to slap their child and Moler objected. This caused the trouble though Moler had been drinking some. Upon his arrival at police headquarters, Moler told a story to the effect that his wife's people bore enmity towards him and recalled some clashes of the past. Chief Davidson advised him to take his wife away from her home and to live to themselves and perhaps they would get along much better. He was dismissed.

## DOYLE ROUNDS IN FROM TEXAS TRIP

Brown as a berry, due to the action of the tropical sun, William Doyle, who has been spending the past few weeks in the fried ham belt of sunny Texas, mingling with a small army of baseball players, arrived in Portsmouth, Monday evening, with a stop over at St. Louis where he signed a contract to act as official scout for the St. Louis Browns of the American league for the coming season.

"Billy," as he is best known to all his friends, was found in a rare good humor by a Times man, Tuesday morning, and he reeled off stories by the yard, which will appear in this paper later in the week. He is singing the praises of Manager O'Connor of the St. Louis Browns, for whom he will scout beginning on May 1, when he will visit all the college towns in forty different states or more, and hopes to fasten his talons upon some promising players.

"Billy" had no trouble whatever in making himself solid while at Marlin Springs. His knowledge of the game and the fact that he had the pedigrees of nearly all the young players in the business right on his tongue's end, appealed strongly to Manager O'Connor and President Hedges, and when they learned that he could with honor sever his connection with the Cardinals they offered him a contract to do scout duty for their team, and as the figures were considerably more than he expected, he lost no time in striking a bargain.

"Billy" was introduced to Manager O'Connor by Owner Gardner of the Dallas team, who paid the Portsmouth boy a splendid compliment as the judge of young players and as an evidence of his worth, pointed out several players on the Dallas lot who were then performing and who had been picked out of the bushes by Doyle and were making good with a capital G.

On his trip north, Doyle stopped off in St. Louis and was in consultation with Owner Hedges of the Browns. He was subjected to a regular avalanche of questions, and his answers appealed to Mr. Hedges, who clinched the bargain twist Doyle and O'Connor.

Doyle's territory will be the East, and he expects to travel through New York, Connecticut, Pennsylvania and as far north as Maine—anywhere and everywhere small leagues are flourishing. He will also have the central Ohio State, Three Eye, Virginia Valley and Illinois leagues as part of his territory.

His friends here are pleased to learn of his promotion. They all know he is square, competent and earnest and they will be pulling for him to land many a cracker-jack for the Browns.

## OLD DIGGERS HOLDING OUT

Marion, O., March 29.—Although contracts to the reserved players of last season's team were sent out a month ago, Catcher William Johnstone and Manager Lewis are the only ones who have returned their signed contracts, while no unsigned contracts have been returned. No word has been received from any of the players, but this is causing the local manager and directors no uneasiness.

B. C. Kanney, of New Albany, O., who is highly recommended by Pitcher McGuire, Infielder Wolfe and First Baseman Gowdy, has made application for the second base job on the local team.

"That worthless dross called money," says Mr. Carnegie. Don't care what the bird calls it. Scatter it about a bit.

## Will Wager Large Sum On Coming Big Fight

This Jeffries-Johnson fight is going to be the biggest betting sporting event the world has ever caught up with. It would be impossible to forecast the amount that will be wagered on the men before they step into the ring July 4th.

Beginning with Jeffries' paper in his Los Angeles cafe venture, Kipper, who has offered to bet $200,000 on Jeff against $140,000, which started the betting at 10 to 7, we shall hear of hundreds of wagers in smaller amounts from now until the day of the fight.

Don't figure that the odds will remain 10 to 7. As the Johnson money begins to appear the figures will shorten some, but not much, for the reason that the mass of money will come from white men who believe Jeff unbeatable.

The colored men will back Johnson as a matter of course, and thousands of white men who habitually take the short end will stake their money on Johnson, while pulling for Jefferies to win. You will hear many a shrewd gambler declare himself in favor of Johnson because he is on the short end while expressing the hope that Jeffries will come home in front.

It is estimated that there are about 20,000 negroes working on railroads in this country, and with their well known willingness to bet on any question, it is safe to say these men will together put up $100,000 on their champion. Add to this number the waiters, boot blacks, barbers, levee and field hands in the South, and there is going to be a heap of money behind Johnson when he defends his title July 4.

It is hardly exaggerating it to say that a couple of million dollars will change hands should Jefferies lose the battle, while close to a million and a half will be won by Jefferies' backers in the event of his winning.

## Larry McLean And His Troubles

It is pretty near time for this Larry McLean stuff to peter out. Larry through his actions has forced himself into the limelight, and incidentally played hob with the chances of the Cincinnati team. Providing, of course, Griff lives up to his word. McLean is a great catcher, possibly the greatest receiver in the business. While he is not a Johnny Kling or Lou Criger when it comes to headwork, nevertheless he is equally as good as George Gibson and much better than George Schlei. With Long Larry in harness, the Reds look pretty good—without him they will flounder around like so many salt water mackerals on dry land.

Many fans in this city are of the opinion that Griffith and McLean will bury the hatchet, and that the big fellow will soon be seen cavorting in a Red uniform.

And it might be said that because McLean happened to take a drink or two or a half dozen, for that matter, that there is no excuse of laying him off for a year. Other players, with much less ability, take tumbles off the water wagon, and they escape. At least there is not a column written every day heralding their fall from grace. Larry is sore because of the publicity given his escapades. He is being held up to ridicule and scorn, is made the goat of the camp, and any player, with the weaknesses of McLean along temperamental lines, would quail under the fire of adverse criticism meted out to him.

It would be better should the Reds trade McLean. And don't be at all surprised should a deal be fixed up for Kling. It looks as though Johnny would be reinstated and turned over to the Giants, and then sent to Cincinnati in exchange for Long Larry. If that disposition is made of the case there will be reason for the touching off of red fire.

## BILL BAILEY DOING FINE

"Shawnee Bill" Bailey is hitting the ball hard and often in the practice games of the Toledo Mud Hens in the South. Owner Armour has been told of Bailey's ability and will give him a thorough trial. Bailey has been playing right field for the regular team in both exhibition and in practice games.—Mansfield News.

Bailey is the man who was traded to Toledo for Spencer and Collins of the Portsmouth team.

## Brid's Opinion Being Fulfilled

Judging from the reports that are coming from the camp of the Cincinnati Reds at Hot Springs, Bridwell's expert opinion of Coveleski, the big Pole who was secured from Philadelphia, is running true to form.

The readers of The Times will readily recall that Briddy stated over his own signature that the Pole would prove to be a lemon. Cove gained his reputation in 1908 by beating the Giants out of the pennant. But Briddy claimed that he had more luck than ability, saying that his ball floated over the plate as big as a balloon, and that the batters had no trouble whatever in making connections. The ball, no matter how hard hit, went straight into the hands of a waiting fielder, and the big miner won his games. Bridwell insisted that Cove had little more than a glove and a prayer. So far Cove has done nothing to disprove this statement. He has been hit hard and consecutively by Boston, again whom he has pitched three times. Possibly after all, Philadelphia got much the better of the all around trade. Cincinnati let go of Ewing, Oakes, Huggins and Brennen and have Beebe and Coveleski to show for the swap. Beebe is the goods, but it looks as though the Pole would soon be placed upon the bargain counter.

## Reds Need Good Utility Infielder

The untimely death of Allen Storke was a hard blow to the Cincinnati team. He was counted upon as utility infielder, and as such would doubtless have proven one of the best assets on the Porktown bunch. Right now Griffith is all at sea over that infield problem, for he has not a solitary understudy, unless it be Charles, to fill in should any of the regulars become crippled. For a while the Cincinnati papers were filled with fulsome praise for Konnick, a young catcher, who was heralded as a coming Herman Long. Now they have subsided along this line. Then came odles of praise for Paskert, thence Doyle and a little bit of McCabe. But the bare fact remains that the Reds are hard up for a competent utility man, without whom they will encounter many rocks and reefs in the trip toward the port of Pennantville.

## Distels Braves Win A Series

The Distel Braves put it all over the Seiler Mohawks at the Acme alleys Monday evening, winning a three-game series by a total of 151 pins. The night was hot and sultry, anything but conducive to good bowling, and the Mohawks went down to defeat simply because of their listlessness and the luck of Jim Wanless. The next series will be rolled at the Majestic alleys on the evening of April 7th, when the defeated larkies hope to avenge themselves and after the game eat that supper that will be paid for by the vanquished.

## Read's View Of Spencer Case

President Gableman received a letter from President Read, of the Ohio State league, Tuesday morning with reference to the ruling of the national commission, made in the Spencer case. He suggested that the local club owners take up the matter of the payment of the $800 Toledo still owes for Spencer. He believes it will be an easy matter to compel Toledo to come across with the balance, in which event it will leave but $50 for the local club to turn over to Canton. However, as Attorney Oscar Newman expects to reopen the case with Secretary Bruce at Cincinnati next Thursday, it is thought best to await the decision before taking up the Spencer deal with Toledo.

# Brakeman Claimed Was Short Changed

W. A. Rickard, an N. & W. brakeman of the Talpole division, put up a vigorous claim to the effect that he had been short-changed to the extent of $9.70 at the Auditorium rink Monday night.

Rickard though having visited the rink before never made any pretense at skating until Monday evening. He just took a header when Charles Collins, an attache, started to hand him $9.30. The brakeman had previously handed Ticket Agent Arthurs a ten dollar bill and at once broke for the floor. Arthurs sent the change by Collins. As soon as he regained his feet Rickard claimed to have been short-changed. Quite a dispute followed Rickard defying anyone present to search him. Officer Sam Phillips was called in. He questioned several of the skate boys all of whom declared they saw Collins hand Rickard his money. A friend of Rickard had seen him pay the ten dollar bill to Arthurs but had skated to another part of the rink when the change was sent to him.

Rickard became so demonstrative that he was asked to go to police headquarters. A number of attaches including Collins were summoned as witnesses. Collins offered no objection to being searched by Desk Sergeant Dan Buckley. No money was found upon him. Rickard too was searched and was found to have $24 and some small change. He still protested in loud tones that he had been relieved of $9.70. The skate boys all gave the same straight forward statements of having seen Collins pay over the money. Sergeant Buckley ordered Rickard to pick up his money from the desk and to go his way! or he would place him in a cell, he having satisfied himself that Rickard was in the wrong. Rickard lingered in the vicinity of the police station for some minutes weeping over his supposed loss. He hails from Pikeville, Ky., and is a married man.

## McCarty Looms Up Real Sweet

Officer Tom McCarty worked a wonderful transformation in himself when he had his mustache shaved off Monday. Mac looked like an entirely different man and many of his closest friends had difficulty recognizing him. His side partner Officer Joe Stokely has drawn the line and they are no longer paired each going his own sweet way. Mac though is hopeful all will come around in the end.

## SETTLED WITH THE N. & W.

Chillicothe, O., March 29.—The county commissioners on Monday closed up all matters with the Norfolk & Western railway as far as county work is concerned. A resolution was signed granting a grade crossing for the Poor House road, over which it was impossible to erect either an overhead crossing or driveway.

All the objections which had been filed to the overhead crossing above Hopetown, near Fred Chester's, having been withdrawn, the commissioners adopted the resolution. The railroad agrees to erect a steel bridge with a twenty foot driveway, paved with brick and to make a macadam approach on each side.

## A Dead Stomach

**Of What Use Is It?**

Thousands? yes hundreds of thousands of people throughout America are taking the slow death treatment daily.

They are murdering their own stomach, the best friend they have, and in their sublime ignorance they think they are putting aside the laws of nature.

This is no sensational statement; it is a startling fact, the truth of which any honorable physician will not deny.

These thousands of people are swallowing daily huge quantities of pepsin and other strong digesters, made especially to digest the food in the stomach without any aid at all from the digestive membrane of the stomach.

Mi-o-na stomach tablets relieve distressed stomach in five minutes; they do more. Taken regularly for a few weeks they will build up the run down stomach and make it strong enough to digest its own food. Then indigestion, belching, sour stomach and headache will go.

Mi-o-na stomach tablets are sold by druggists everywhere and by Worster Bros., who guarantee them. 50 cents a box.

# Hawley's Big Plan For C. & O. Railway

New York, March 29.—Edwin Hawley is one of the American railroad men who realizes the importance of waging sharp competition with Canadian lines for the business of the northwest. New York harbor as a terminal for the Northwestern business is hopeless, because of the huge wall of overcapitalization built between New York and the producing section of the country.

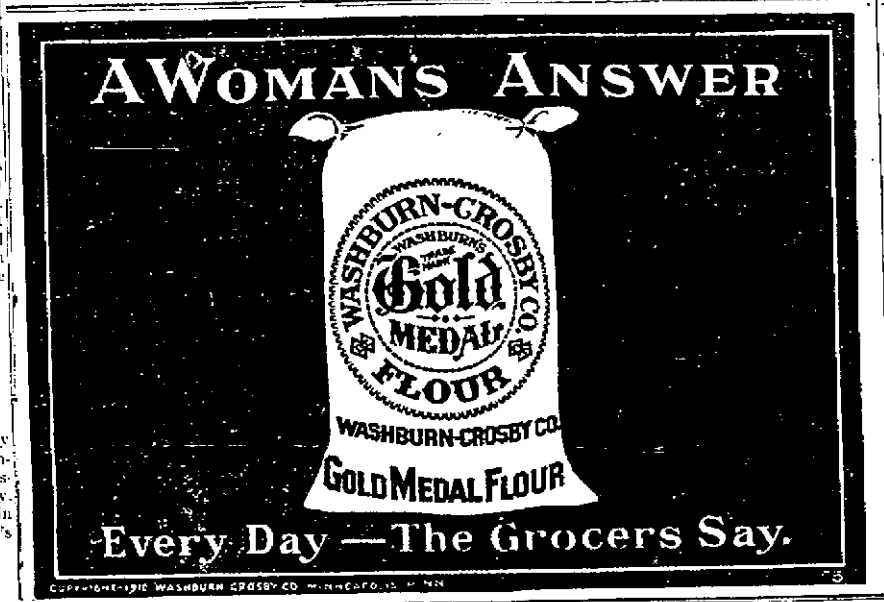

Hawley is developing at Newport News a seaport that in time will make New York take second place for freight shipments. He has just completed financial arrangements providing for an entrance into Chicago, and announcement that he has completed his great system from the Atlantic to the wheat fields of the Northwest must be near at hand.

The issue of bonds, to be announced tomorrow, provides, among other things, for connecting the Chesapeake and Ohio at Cincinnati with the Chicago and Alton and Clover Leaf by way of the Chicago, Cincinnati and Louisville.

# Tells How To Work Up Run Down Soil

Roanoke, Va., Mar. 29.—(Special) Bob Seeds, the popular Chautauqua and Farmers' Institute lecturer, has caught the farmers with his entertaining talk on "How God Made the Soil Fertile," and Mr. LaBaume, of the Norfolk & Western, who is a great admirer of "Our Bob," as he is familiarly known all over the country, has secured a limited number of printed booklets containing this lecture for distribution to those who can appreciate and profit by its teachings.

Fifteen years ago Mr. Seeds gave up a good business in Tyrone, Pa., in order to move out into the country and get the benefit of outdoor life, sunshine and health. He bought an old worn-out abandoned farm, which had been deserted for 11 years because no one would live on it, and he was called a fool by his best friends for so doing. Now Bob is just an unusually intelligent and observing, patient, industrious and persistent good average American citizen, who knew what he wanted and had the common sense and courage to go after it with the aid of the faculties above mentioned. In less than five years' time he was taking over $50 per acre off this same old worthless farm and he did it all with the aid of lime, manure and clover all made on the farm and mixed with the brain the Lord gave him. He tells all about it in the book, which is well illustrated throughout and reads like a story. A copy can be had by addressing Mr. LaBaume at Roanoke and sending five cents for postage. The regular price is 25 cents and thousands of copies have been sold at that price.

## TO MAKE WAR ON SOFT DRINKERS

That war is to made on the soft drink establishments at South Portsmouth is the belief of many people in that oasis, all because Justice Bricker left early Tuesday morning for Greenup, where he was scheduled to appear before the county judge in the hope that some way could be devised to put a stop to the sale of near beer in that village.

Justice Brickey was approached by an interested party who asked him as to his mission, but he refused to commit himself further than to say he expected to be in a position to make an interesting statement upon his return.
